

N & V Services

For Your Better Health At Home

Welcome to N & V Services

A firm belief in absolute client satisfaction! **N & V Services** is a trusted provider of Home Care Services in the cities and counties of Minnesota. By applying total quality management in the home care programs we provide, we hope to encourage our clients in learning self-care skills that will help them improve their living conditions at home. In making service arrangements, we put your needs first. We can set a schedule that is convenient for you and your family at home. As much as we can, we keep your family's accustomed lifestyle preserved while we work on enhancing your health conditions with nursing care and assistance with daily living.

All members of the **N & V Services** staff will work with the guidance of your physician and under the supervision of a registered nurse. For every client, we make it a point to assign a caregiver whose skills and experience enable the efficient handling of specific care requirements.

Our office is proud of the matching process we have refined over time. Would you like to meet our caregivers and get matched? Call (763) 442-0460 today to set an appointment.

Private Duty Nursing

There is lesser need to travel to a hospital or care facility to receive nursing care. You don't even have to be confined to a hospital – you can just stay at home.

Private Duty Nursing allows home-bound patients to receive the medical attention required by their health conditions. A nurse will be assigned to visit your home on agreed schedules and administer the following services:

- Case Management
- Evaluation of your Health Condition
- Medical Documentation
- Administration of Rehabilitative Care
- Wound Care
- Housing Services
- Assisted Living Services
- Catheter Care
- Ostomy Care
- Diabetic Care
- Wound & Ostomy Care
- Circulatory Care

PCA

Get personal care services at home! Achieving comfort and wellness at home is easier with a PCA.

Under the supervision of a Registered Nurse, our PCA are experienced and knowledgeable to handle various health situations.

Services will include:

- Meal Preparation
- Assistance with dressing, grooming and bathing
- Handout Medication
- Mobility Assistance
 - moving around the house
 - walking
 - going up and down a flight of stairs
 - Housekeeping
 - Personal Laundry

Personal Care Attendant

You need continuity of care especially if you recently got discharged from the hospital. Adjusting to new living conditions can be difficult but with a Personal Care Attendant, we can make it easier.

A personal care attendant is trained to help you with daily living tasks. He or she will also train you in preventing falls and getting injured further.

You can expect to receive the following services at home:

- Housekeeping
- Laundry
- Companionship
- Personal care and attention
- Assistance with daily living (bathing, grooming, dressing, toileting)
- Meal preparation
- Grocery Shopping and Picking-up Prescriptions
- Running Errands
- Transportation (Scheduled and Incidental)

Who We Are

We personalize our home care services to fit your needs. N & V Services is guided by a set of missions and a company vision:

Our Missions

- To provide patients and families with a wide range of short-term and long-term homecare needs.
- To define our services as cost-effective and quality-driven in order to achieve the client's total satisfaction.
- To continue our history of successfully managed cases through the efficient delivery of home care services for the residents of Minnesota counties and cities.

Our Vision

It is our vision to make home care services available for every patient who is in need regardless of race, color, sexual orientation, handicap, religion or national origin. Through our home care services, your care requirements at home will be answered by affordable, accessible and quality care services brought to you by the dedicated staff at N & V Services.
